

# AWARE PARKING SOLUTION

The **Aware Parking Solution** uses smart sensors to track indoor and outdoor parking space availability and activity. Receive real time alerts on occupancy, availability, and “No Parking” zone violations.

Applicable to a wide variety of residential and commercial scenarios, the Aware Parking Solution works for:

- Resident & Guest Access
- Time limited loading zones
- No parking zones
- Violation issuance
- Blacklist and blocked vehicles

Our Smart Sensor Technologies are optimized for always-on, highly-accurate vehicle detection while maintaining ultra-low-power operation:

- **Earth Magnetic** (ground surface mount)
- **LiDAR** (ceiling mount for parking garages)
- **Video Analytics** (larger area coverage with image detection and visual reference backup)

# SOLUTIONS FOR EVERY BUILDING

Aware provides monitoring solutions for all areas of a building

**LEAK  
DETECTION**

**FITNESS  
CENTER**

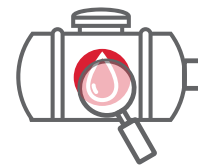

**PARKING  
MANAGEMENT**

**REMOTE WATER  
VALVE SHUTOFF**

**HVAC SYSTEM  
MONITORING**

**PUMP  
MONITORING**

**ELEVATOR  
MONITORING**

**DOOR  
AJAR**

**OCCUPANCY  
MONITORING**

With more than 5,000 buildings running our software, no one knows building maintenance like we do.

INNOVATIVE. EMPOWERING. SEAMLESS.
